

Alise Martiny
Vice President
OPCMIA

I represent the membership and signatory contractors of the Operative Plasterers & Cement Masons. I help recruit and train our future workforce as well as assist contractors on finding a qualified team to help complete their projects and grow their market share.

I began working with my tools in 1980 and graduating to Journeymen level. I have worked on thousands of job sites, with a passion of recruitment and mentorship of women in our industry. I have held many elected positions including Business Manager of the K.C. Building Trades Council for 11 years before being appointed to OPCMIA Vice President this year.
