

Madison Hull
Director of Service
District Council 16 International Union of Painters and Allied Trades

Madison Hull is a Glazier and Architectural Metal & Glass Worker by trade. Her journey in construction began in middle school woodshop, continued through high school art classes, and was further ignited during a reprieve from community college when she enrolled in AmeriCorps. In AmeriCorps, Madison was accepted into the Disaster Relief program with the Red Cross in Miami, Florida.

Madison's experience serving in AmeriCorps shaped her trajectory. A humanitarian at heart, she was tested by some of the most life-altering and devastating events faced by communities and families during and after natural disasters. This experience led Madison back to community college, where she pursued a career in the skilled trades at Laney College in Oakland, CA.

Madison completed her 5-year Apprenticeship program with District Council 16 Northern California Architectural Metal & Glass Workers. Over her 13 years in the field, Madison served as a Superintendent, Foreman, and Leadman. She had the opportunity to learn and be mentored by some of the most skilled mechanics and caring mentors in the industry.

In the last decade, Madison has continued her career path as a Union leader, community activist, and advocate for careers in non-traditional employment. During this time, she has served as Business Representative for Glaziers LU718 San Francisco, Communications & Political Director for District Council 16, and currently holds the position of Director of Service & President of District Council 16 IUPAT.
